

**"HOME AWAY FROM HOME NEVER LOOKED BETTER" . . .** In designing this Methodist Girls Home the architects gave the girls several benefits their real homes probably didn't have:

- A spectacular view of downtown St. Paul, Minnesota.
- A central service core that made meals and house-keeping fast and simple.
- New Andersen Perma-Shield® Windows\* that don't need painting or storm windows, and operate at a finger's touch.
- An exciting building that is fun to live in.

If you're going to live away from home . . . these are a few of the qualifications that make "home away from home" a wonderful place to be.

Building: Emma Norton Residence,  
Methodist Girls Club  
Location: St. Paul, Minnesota  
Architects: Progressive Design Associates  
St. Paul, Minnesota

## The Good Building

We share an architect's pride in a "good building." We do our best to supply Andersen Windows that compliment both the appearance and the function of an architect's building design. We supply windows that last.

But beyond providing a good product, we appreciate the fact that a part of true professionalism is producing *on time*. That's why Andersen distributors carry the largest window stock, maintain the largest fleet of delivery trucks, and employ the largest staff of sales and servicemen in the window business.

Call us. We'll give you a demonstration, supply you with tracing files . . . do everything we can to help achieve the result we both desire . . . a "good building".
